

## ABOUT ME

I'm an ambitious UX design student currently seeking a role in a design team who has a passion for user interaction and branding. My goals are to innovate with my work and be a part of an organisation that prioritises creativity and innovation. I also want to gain experience for the future. Apart from designing, I love to research current design trends and spend a lot of my time in digital spaces as well as having a good cup of coffee.

## WORK EXPERIENCE

### **IMC Cinema Ballymena 2021-present** General Staff & Supervisor

As a general staff member, I was an effective team member, consistently working in collaboration to meet organisational goals, I delivered a high level of customer service to ensure customer needs were met during busy periods and to maintain the reputation of the cinema

After being promoted to Supervisor, I took on greater responsibility in administration and office operations, these entail preparing reports, co-ordinating with staff, pushing for team productivity, and developing a strong understanding of the cinema's technical systems like the projectors and curating a movie playlist.

## EDUCATION

### **Ulster University 2024 - Ongoing** Digital Design BDes (Hons)

### **Belfast Metropolitan College 2022-2024**

HND Graphic Design Level 5 - Overall Merit with 30 Distinction Points

OCN Level 2 Erasmus Sustainability - For this I went to Belgium for two weeks to work on a group project and learn about sustainability in design, I gained team-working skills and learned about how sustainability can be incorporated in design

OCN Level 2 Collaborative Teamwork - For this I spent two weeks at Belfast Met, working in a group to present a talk on good and bad graphic design, I learned more about working as a team in a design setting.

### **Cambridge House Grammar School 2015-2022**

A Levels – Media Studies *B*, Digital Technology *E*, Health and Social C  
GCSE's - AAABBC\*C *including Maths and English*

## TECHNICAL SKILLS

I am proficient in Adobe products such as Photoshop, InDesign, Illustrator and After Effects gained from studying graphic design degree in Belfast Met, applying these tools to create clear engaging visuals. More recently, I have been developing my skills in Figma, HTML & CSS as well as user research, through my digital design course at Ulster University. I also have been exploring Blender as I have an interest in 3D Modelling.

## SOFT SKILLS

Throughout my academic journey, work experience and my life experiences, I have demonstrated a range of transferrable skills including: teamwork and collaboration, coaching others, self organisation, problem solving, creativity, innovation, and an ability to effectively engage with others.
